*the power of the continuum*

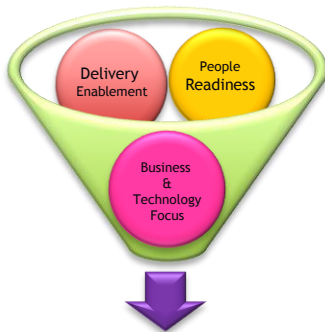

Microsoft Dynamics

## Microsoft Dynamics Centre of Excellence

Anantara's Microsoft Dynamics practice helps automate and streamline business processes across Financial Management, Supply Chain Management, Manufacturing industries. Anantara provides end to end services across Microsoft Dynamics products like: Microsoft Dynamics AX (Axapta), Microsoft Dynamics NAV (Navision), Microsoft Dynamics CRM, SharePoint & Microsoft BI.

Our expertise in certified resources, leveraging multiple Microsoft Dynamics implementations, ensures quick roll out, on time support and service, high quality product or add-on development and complex customizations.

### Key Highlights

- Drives innovation through investment and collaboration on reusable assets and delivery techniques.
- Promotes specialization by keeping practitioners focused on specific solution areas for an extended period of time.
- Enhances customer deliveries through access to focused pools of solution practitioners and teams of shared experts.

### Key Focus Area

- Microsoft Dynamics AX
- Microsoft Dynamics NAV
- Microsoft Dynamics CRM
- Microsoft SharePoint Configuration & Development
- Microsoft Business Intelligence

#### Implementation

Anantara provides robust implementations based on our own methodologies that adhere to global standards and processes.

#### Support & Maintenance

Anantara provides end-to-end post go-live support and maintenance on existing implemented Dynamics products, SharePoint & Microsoft BI tools.

#### Product Upgradation

Anantara provides product upgradation from lower version to higher version or from one Dynamics product to another Dynamics product.

#### Development

Anantara does complete development on Dynamics products like add-on development, industry verticals etc... Also providing SharePoint development, BI development etc...

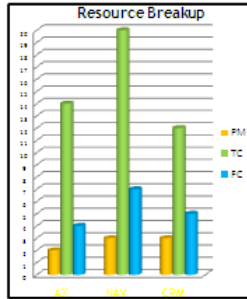

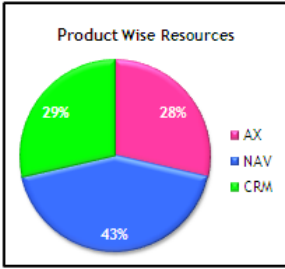

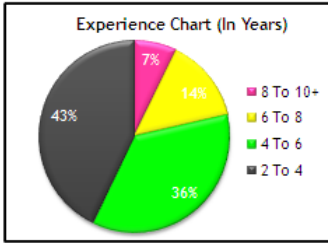

#### Customization & Enhancement

Anantara also performs customization and product enhancement to meet customers' requirement.

#### Integration

Anantara does complete integration with other Microsoft products like SharePoint, MS-Office, MB-BI or other legacy application which needs to be integrated with Dynamics products.
